ROLE DESCRIPTION — SOFTWARE SUPPORT ENGINEER

Document ID: DOC-017

Version: 1.0

Role ID: R07 Department: Software & Technical Support

SECTION 1: ROLE SUMMARY

The Software Support Engineer provides advanced technical support for the NexaCRM Pro platform, including bug investigation, client-side configuration, API integrations, and escalated P1/P2 ticket resolution.

SECTION 2: KEY RESPONSIBILITIES

- Investigate and resolve escalated P1 and P2 support tickets - Diagnose platform bugs and coordinate bug reports with the Product Engineering team - Assist clients with NexaCRM Pro configuration and API integration - Write and maintain technical documentation and troubleshooting guides - Contribute to the internal knowledge base with solutions for complex issues - Conduct technical onboarding sessions for new enterprise clients - Perform root cause analysis for recurring issues - Monitor platform health dashboards and respond to alerts

SECTION 3: MANDATORY COMPETENCIES

- Proficiency in Python, REST APIs, SQL (demonstrated or proven via assessment) - NexaCRM Pro architecture and data model knowledge (training within 30 days) - ITIL Foundation understanding (certification preferred, training within 60 days) - Secure coding and data handling practices (information security training required within 5 days) - Advanced data privacy requirements for client data handling (training within 5 days)

SECTION 4: MANDATORY ONBOARDING REQUIREMENTS

- Company orientation (Day 1) - NexaCRM Pro technical architecture deep-dive (Week 1-3) - API documentation and integration patterns training (Week 2-3) - Information security advanced training (Week 1) - Data privacy advanced training for technical staff (Week 1) - Code of conduct acknowledgment (Day 1) - Bug reporting and escalation procedures training (Week 1-2) - Supervised P1 ticket shadow resolution (Weeks 2-3, minimum 5 tickets) - Technical competency assessment (Python/SQL/REST API) (Week 3) - Secure coding practices workshop (Week 2)

SECTION 5: KPIs

- P1 resolution time (target: within 4 hours) - P2 resolution time (target: within 24 hours) - Knowledge base contribution (target: minimum 2 articles/month) - Recurring issue reduction rate (quarterly metric)
