

NimbusWorks Data Privacy Policy

Version: 1.0 | Effective: 2026-01-01

1. Data Collection

1.1 Customer Data

NimbusWorks collects customer data solely for providing project management and billing services. Data Analyst and Finance Associate roles must only access data relevant to their tasks.

1.2 Employee Data

Employee personal information is collected for payroll, HR, and compliance purposes. It is stored securely and accessible only to HR and Finance teams.

2. Data Usage

2.1 Permitted Use

Customer data must not be used for marketing without explicit consent. Under no circumstances will NimbusWorks sell customer data to third parties.

2.2 Data Anonymization

Data used for product analytics or internal reporting must be anonymized to prevent the identification of individual users.

3. Data Retention and Deletion

3.1 Retention Period

Customer data is retained for the duration of their subscription plus 90 days, after which it is permanently deleted from all active servers.

3.2 Deletion Requests

Customers may request immediate data deletion under GDPR/CCPA. The DevOps/IT Engineer team must process these requests within 14 days.

4. Breach Notification

4.1 Internal Escalation

Any suspected privacy breach must be immediately escalated to the Information Security Officer and the Legal team.

4.2 Customer Notification

In the event of a confirmed breach involving sensitive data, affected customers will be notified within 72 hours.
